Overall Growth
Across two decades

93.9%
Kerala, 2011

63.8%
Bihar, 2011

- Literacy improved significantly across all demographics
- Kerala remained the literacy leader throughout
- Female literacy showed major growth
- Rural literacy improved steadily
- Regional disparities still exist

Why Literacy Analytics Matters

Project Objectives

01

Analyze literacy trends across three Census decades

02

Compare performance across Indian states

03

Evaluate gender-based literacy gaps

04

Contrast rural vs urban literacy patterns

05

Generate evidence-based policy recommendations

From Raw Census Data to Actionable Insights
